EDUCATION

Shri Vishnu Engineering College For Women
B.Tech /Artificial Intelligence; CGPA: 9.72

Bhimavaram, India
2024 – 2028

PROJECTS

Railway Reservation System ([Project Link](#))

- **Tech Stack:** Java, JavaFX
- Built a **JavaFX-based Railway Reservation System** implementing Confirmed, RAC, and Waiting List logic to simulate real-world ticket allocation.
- Applied **Object-Oriented Programming (OOP)** concepts such as encapsulation and abstraction, along with efficient use of Java Collections, for structured and optimized ticket management.
- Integrated file handling with GUI-based booking and cancellation workflows, ensuring data persistence and adherence to real-world railway reservation rules.

Restaurant Tip Prediction using Machine Learning ([Project Link](#))

- **Tech Stack:** Python, Pandas, Scikit-learn, Matplotlib
- Built a regression model to predict tip amounts.
- Cleaned data using encoding and missing value handling.
- Visualized bill vs tip trends using Matplotlib.

Meta Ad Performance Analysis Dashboard([Project Link](#))

- **Tech Stack:** Power BI, Power Query, DAX, Excel
- Developed an **interactive Power BI dashboard** to analyze **Meta Ads performance** using key marketing KPIs.
- Created **dynamic KPIs with Power Query and DAX** to deliver data-driven insights for targeting and budget optimization.
- Designed **interactive visualizations and slicers** to enable real-time performance tracking and comparison across campaigns, audiences, and time periods.

ACHIEVEMENTS

- Earned a **50-day consecutive LeetCode** coding streak, demonstrating consistency and problem-solving dedication.
- Selected among **2+lakhs** of applicants for the FFE and Reliance Foundation scholarships, recognizing academic merit and excellence.
- Attended a **UI/UX workshop by Google Developer Groups** at SVECW, learning wireframing, prototyping, and user-centric design using Figma, Adobe XD, and Material Design.
- Presented a **research poster titled “Matrix Theory in Neural Networks”** at **ICAMSET–2024** (Dec 13–14, 2024), hosted by Dhanalakshmi Srinivasan University in collaboration with Siirt University, Turkey, exploring applications of **matrix theory in neural network design and analysis**.
- Presented research on integrating matrix theory with neural network models at **ICRAAE–2024**, receiving expert feedback to refine model design and theoretical understanding.
- Contributed to the successful delivery of a competitive solution at the **Amaravathi Quantum Valley Internal Hackathon 2025** through strong collaboration and problem-solving.

SKILLS SUMMARY

- **Languages:** Python, Java, C, SQL,HTML,CSS
- **Databases:** MySQL
- **Tools:** Git,GitHub
- **Analytics:** Power BI
- **CS Fundamentals:** DSA, OOPs, DBMS
- **Soft Skills:** Communication, Leadership

POSITION OF RESPONSIBILITY

- **Coordinator – Mathletes Club** –Organized math activities, guided peers, and promoted problem-solving skills.
- **Class Representative (CR)** – Represented students, coordinated with faculty, and ensured smooth communication.
